

B-COMPLEX oral liquid

Complementary feed with B vitamins and pro-vitamins for improve fertility

- ✓ **Improves fertility and hatchability**
- ✓ **Prevents anaemia, muscle weakness**
- ✓ **Improving feed conversion (FCR)**
- ✓ **Improves egg production in layers**
- ✓ **Prevents early chick mortality**
- ✓ **Improves resistance against diseases**
- ✓ **Prevents diarrhoea, heatstroke, and stress**
- ✓ **Essential for proper digestion and metabolism**

B-COMPLEX

oral liquid

Composition per liter:

Vitamin K3	10 000 mg
Vitamin B1	HCL (thiamine) 7 000 mg
Vitamin B2	(riboflavin) 2 750 mg
Vitamin B6	HCl (pyridoxine) 4 000 mg
Vitamin B12	(cyanocobolamin) 20 mg
Vitamin B9	(biotin) 15 mg
Vitamin B3	(nicotinamine) 15 000 mg
Choline chloride	20 000 mg

Problem:

Vitamins are complex organic compounds. They are essential for the metabolism, since they maintain normal physiological functions such as growth and development, life functions, health and reproduction. An insufficient supply of the B vitamins will reduce the activity of the corresponding enzyme and result in metabolic disorders. This will lead to disorders of the skin, mucous membranes and hair, an impaired immune system and reduced performance.

Solution:

Vitamins are essential for the metabolism, since they maintain normal physiological functions such as growth and development, life functions, health and reproduction.

Vitamin of the B-group act as co-enzymes and play an important role in metabolism and fertility. Vitamin K3 is metabolically activated in the liver to become cofactor in the activation of the vitamin K dependent proteins. It is important for normal blood coagulation and normality of bones. And choline chorine plays an important role in fat metabolism.

Administration:

Poultry: 250 ml per 1000 liter of drinking water. Shake well before use. Administer only diluted in water. Not for human consumption.

General notes:

Product safety can only be guaranteed with adequate storage. Close packaging firmly after use. Store in a cool, dry place away from light.

Presentation:

250 ml, 500 ml, 1 liter and 5 liter PE-bottle

FOOD SUPPLEMENT
Not for treatment of any disease
