

B-LIVER oral liquid

Complementary feed with sorbitol, essential vitamins & amino acids against fatty liver

- ✓ **Improve Appetite**
- ✓ **Prevent/controls Fatty Liver**
- ✓ **Better FCR**
- ✓ **Regulates Liver/kidney and digestive Functions**
- ✓ **Improve Amino Acid and protein Metabolism**

...because healthy animals generate healthy profits

B-LIVER

oral liquid

Composition per liter:

| | |
|--------------------|------------|
| Sorbitol | 600 000 mg |
| Choline chloride | 200 000 mg |
| Hydroxy methionine | 20 000 mg |
| Lysine | 5 000 mg |
| Carnitine | 50 000 mg |
| Artichoke extract | 20 000 mg |
| Vitamin B1 | 500 mg |
| Vitamin B6 HCl | 500 mg |
| Vitamin B12 | 10 mg |

Indications:

By enhancing digestion and appetite, it helps the animals during recovery and prevents a fatty liver. It improves digestion of feed and avoids fat overload and has a detoxifying effect on the Liver. Artichoke extract has liver and bile stimulation and hepato-protective activity. Vitamins of the B-group play a role in Fat, Protein and Carbohydrate metabolism.

Dosage: (Poultry)

1 ml of B-LIVER per 2-4 liters of drinking water during 3 to 5 consecutive days.

Administration:

Use as directed. B-Liver can be administered orally to poultry and other animal species as per requirement. Use a method which is most convenient for that particular animal.

Storage:

Store in a cool place, protected from light.

Presentation:

5 litre
